Marco Tignanelli

Web Developer

Profile

I am a **full stack web developer** in a continuous state of learning, capable of **self-teaching** and **instructing others** in the vast field of programming. I am seeking a position that values **efficient teamwork** and the delivery of **client-tailored** projects. You will always find me striving to **improve** as a developer and as a person.

Experience

Full Stack Development - EPAM Systems

Mar 2024 - Present

Participated in the full stack development team, using React with Next.js and Python with FastAPI. Implemented Scrum practices, focusing on the rapid delivery of high-quality, customized products according to client needs.

Full Stack Development - Vates Software

Aug 2023 - Mar 2024

Member of the full stack team for various applications, developing both the front end with React and Next.js and the back end with Python and FastAPI. Coordinated Scrum best practices for continuous progress and committed to rapid delivery of client-tailored products with a high standard of quality.

Front End API Implementation - PPOL

Jul 2023 - Aug 2023

Developed functionalities with React and various APIs (Google Maps, GitHub, Spotify, etc.) to integrate into the main application.

Full Stack Development - Hueney Ruca

Apr 2023 - May 2023

Produced an e-commerce web application at SoyHenry, using Next.js for the UI and Supabase for the DB. Delivered a production-ready application with best practices for sensitive information and a smooth, user-friendly interface.
